INTERNAL & EXTERNAL VACANCY ADVERT – 25 APRIL 2026

MKM-JV invites all suitable candidates to apply for the below advertised vacancies.

Position Basic Information	
Position Title: Jet Grouting Recorder & Technician (5)	Department: Abstraction & Dam Works
Project Name: Mokolo Crocodile Augmentation Water Project Phase 2A (MCWAP-2A)	
Job Description	
Key Performance Areas:	Minimum Requirements
<ul style="list-style-type: none"> Record all jet grouting parameters during operations, including but not limited to Grout pressure, Injection flow rate, Rotation speed, withdrawal rate, Drilling depth and elevation, Grout mix details and consumption. Ensure records are accurate, complete, and consistent with approved quality plans. Monitor jet grouting activities to ensure compliance with approved method statements and design requirements. Verify location, chainage, and alignment of grouted elements along the pipeline route. Maintain daily jet grouting logs, production sheets, and summary reports. Flag deviations from specified parameters immediately to the Jet Grouting Supervisor. Assist in preparation of quality documentation such as daily work reports, Non-conformance reports (NCRs), when applicable. Grouting records for as-built documentation. Ensure records are properly signed, archived, and submitted to the QA/QC team or Client Representative as required. Responsible for the accuracy and completeness of jet grouting records. Authority to stop recording and report issues when unsafe conditions or significant deviations are observed. Accountable to the Jet Grouting Supervisor and QA/QC Manager for documentation quality. Liaise with the Jet Grouting Supervisor, drilling operators, surveyors, and QA/QC personnel. 	<ul style="list-style-type: none"> Diploma or in Civil Engineering, Construction Technology, or a related field is preferred. Familiarity with jet grouting equipment, instrumentation, and parameters. Strong attention to detail and accuracy in data recording. Good understanding of jet grouting processes and quality requirements. Ability to read and understand drawings, method statements, and technical specifications. Basic proficiency in Microsoft Excel and reporting templates. Ability to work in challenging site conditions and remote locations. Effective communication and coordination skills. Must be proficient in Microsoft Packages. Written proficiency in English. Ability to write and present accurate monthly reports. Must have a valid South African Drivers' Licence.
